

HLTAID012 PROVIDE FIRST AID IN AN EDUCATION & CARE SETTING

This course will provide you with an understanding on how to provide an emergency response in a range of situations, including within an education and care setting. CPR provided in this course is the same as CPR training all medical professionals receive.

The course is for educators and support staff working within an education and care setting who are required to respond to a first aid emergency, including asthmatic and anaphylactic emergencies.

Course Delivery & Duration

First Aid Action provide a Learner's Manual (both online & PDF) along with mandatory pre-course study requirements. This study reduces the face-to-face training. The course overall course duration is up to 24 hours with up to 15.5 hours of pre-study. The practical training and assessment will take place over a timeframe of up to 8.5 hours. The course is delivered in English and requires students to be competent communicating in English (written and verbal).

Course Content

- Assessment and management of emergency situations and casualties
- Apply life support skills in accordance with Australian Resuscitation Council Guidelines
- First aid management for an emergency situation
- Infection control principles and procedures
- Signs and symptoms of an asthma attack - mild, moderate, severe
- Common allergic and non-allergic asthma triggers
- Use of an asthma bronchodilator medication using a spacer
- Development of risk minimisation and management strategies for asthma and anaphylaxis
- Definition of an allergic reaction and recognition
- Action plans
- Using auto injectors Epi Pen

Pre-Requisites

All students must provide an original photo identification or equivalent and enrolment needs to be completed by the student (with office support, where required).
